-----	-------	------------------------------------

**LEGAL DESCRIPTION OF PROPERTY ON WHICH WATER IS TO BE USED**

The West ½ of the Northeast ¼ of Section 24, T. 18 N., R. 3 W.W.M. excepting therefrom tract conveyed to Henry D. and Suzy W. Moulder, Husband and Wife, by deed dated September 3, 1982 under Auditors File # 8209030008. Also, except that certain 60 foot wide strip conveyed to Thurston County for McKenzie Road as recorded September 7, 1982 under Auditors File # 8209070127 records of Thurston County, Washington.

**DESCRIPTION OF PROPOSED WORKS**

8" x 70.6' drilled well

**DEVELOPMENT SCHEDULE**

BEGIN PROJECT BY THIS DATE: Started	COMPLETE PROJECT BY THIS DATE: <del>January 1, 1997</del>	WATER PUT TO FULL USE BY THIS DATE: January 1, 1998
--	--	--

*January 1, 1999*

*Jan 1, 2007*

**PROVISIONS**

*Jan 2007*

Installation and maintenance of an access port as described in WAC 173-160-355 is required. An air line and gauge may be installed in addition to the access port.

An approved metering device shall be installed and maintained in accordance with RCW 90.03.360, WAC 508-64-020 through -040 (installation, operation, and maintenance requirements are attached). Meter readings shall be recorded at least monthly.

Chloride concentration analysis shall be performed prior to system use, then quarterly when the system is in use, by a laboratory accredited by the Department of Ecology. The resulting data shall be submitted to the Department of Ecology, Southwest Regional Office annually, in the month of February.

If the chloride concentration exceeds 100 mg/L, the withdrawal rate shall be reduced or the pump setting raised to reduce the chloride level to below 100 mg/L.

"The permittee is advised that notice of Proof of Appropriation of water (under which the final certificate of water right is issued) should not be filed until the permanent distribution system has been constructed and that quantity of water allocated by the permit has been put to full beneficial use."

Issuance of this water right is subject to the implementation of the minimum requirements established in the Conservation Planning Requirements, Guideline and Requirements for Public Water Systems Regarding Water Use Reporting, Demand Forecasting Methodology, and Conservation Programs, July 1994, and as revised.

Under RCW 90.03.005 and 90.54.020(6), conservation and improved water use efficiency must be emphasized in the management of the states water resources, and must be considered as a potential new source of water. Accordingly, as part of the terms of this water right, the applicant shall prepare and implement a water conservation plan approved by Department of Health. The standards for such a plan may be obtained from either the Department of Health or the Department of Ecology.

*This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or fail to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.*

*Given under my hand and the seal of this office at Olympia, Washington,*

this 18th day of March, 19 96.
